Absence Management

The cost of absenteeism can be controlled with the fully automated, easy-to-own absence management solution from Kronos®. It will help you reduce the administrative headaches and compliance risk associated with leave laws – not to mention sick time, late arrivals, early departures, and extended breaks – all in one place.

Absence Management

The Workforce Absence Manager™ solution helps you automate and streamline the application of your attendance and leave policies — no matter how complex. Enforce rules consistently. Control costs. And minimize the risk and productivity effects associated with employee absence. Our absence management software:
